_____

_____

_____

2. Identify one item (worksheet, project, test or summary) that you took pride in during this unit.

_____

A. What did you do to create this success for yourself?

_____

_____

_____

3. Think about your experience with self-directed learning you did for Chapter 4. Describe how you would change the way you worked, with this style of learning, in order to achieve a greater understanding of the concepts the next time material is presented this way. Essentially, if you had to do the self-directed portion of the unit over again, how would you do it differently?
